Dear Mr. [redacted]

In answer to your question regarding the fusing of AR-9's, when you take delivery of the units, you will find complete fusing information in the owners manual packed with the speakers. For your information, AR does supply fuses to be used with the AR-9 at \$7.50 per set. The fuse recommended is a Fusetron FNM 2. This fuse is attached in series with the speaker and two sets could be used to fuse the upper and lower sections of the AR-9.

I hope this answers your questions.

Sincerely,

TELEDYNE ACOUSTIC RESEARCH
