- ① All terminals of the 30 A switches are furnished with self-lifting pressure plate connectors as standard. To replace one of these terminals, order part number X-225492.
- ② Each fuse clip kit contains six fuse clips and mounting hardware.
- ③ Class H fuse clip. Part number contains one fuse clip and mounting hardware. Class J fuses bolt directly to the disconnect switch (fuse clip is not required).
- ④ Cat. No. 1494V-FS600 is for Class J fuses. For class H fuses, order (3) of cat. no. 1491-N621. For Class R fuses, order (3) of cat. no. 1491-R621. Class H and R bulletin 1491 fuse blocks will require lug kit 1494R-N11 (qty of 2 kits required). Each lug kit contains 3 lugs (accommodates 2 of #1/0 AWG...350MCM wire).
- ⑤ Each lug kit contains 3 lugs (accommodates 2 of #1/0 AWG...350MCM wire).

Bulletin 1494G/GX/GY Fusible/Non-Fusible Enclosed Disconnect Switches Renewal Parts

Phase Barriers and Line Terminal Guard for Fusible Disconnect Switches and Trailer Fuse Block Assemblies

One phase barrier catalog number contains 2 barriers; one for the disconnect switch, one for the trailer fuse block.

Size	Catalog Number of Disconnect Switch	Phase Barriers for Disconnect Switch and Trailer Fuse Block	Line Terminal Guard	Plug Handle for Terminal Guard
30	1494G(X,Y)-B*	1494F-PH2	40392-801-51 ①	F-26083
60	1494G(X,Y)-C*	1494F-PH2	40392-801-51 ①	F-26083
100	1494G(X,Y)-D*	1494F-PH3	40392-801-51 ①	F-26083
200	1494G-E*	1494F-PH4	40392-801-52 ①	F-26087
400	1494G-F*	1494F-PH4	40392-801-53 ①	F-26088
600	1494G-G*	40398-456-56	40399-303-51	Not Used

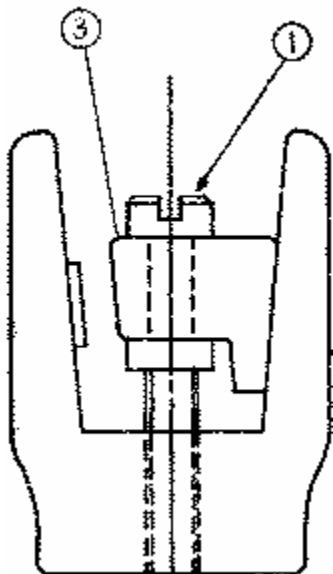

① Part number includes both the line terminal guard and the plug handle.

Fuse Clip Kit Repair Parts (Class H, J fuse clips)
