

**Quick facts** Vehicular Instrumentation Systems (VIS), a business unit of AMETEK Instrumentation and Specialty Controls Division, is a world leader in the design and manufacture of precision instrumentation, controllers, and display systems. Our primary products are instrumentation, gauges, and driver information panels for over-the-road vehicles, RVs and off-highway vehicles. Additional products include message centers, LCD displays, light bars, keypads, modular instrumentation and control/display modules for farm and construction vehicles and military applications.

VIS headquarters are in Grand Junction, Colorado and include Sales, Engineering, and Manufacturing. Facilities in Reynosa, Mexico provide additional manufacturing capability. An international network of distributors and representatives provides products and services throughout North and South America, Europe, and Asia. A stable, cooperative, experienced, and highly

successful management team provides quick, positive responses and timely solutions in an ever-changing global economy.

AMETEK is a leading global manufacturer of electronic instruments and electromechanical devices with annualized sales of \$2.5 billion. AMETEK has over 11,000 colleagues working at more than 80 manufacturing facilities and more than 80 sales and service centers in the United States and around the world.

### Product Offerings

- ☞ Instrumentation
- ☞ Clusters
- ☞ Message Centers
- ☞ Chassis Interface Modules
- ☞ Power Multiplexing Modules
- ☞ Keypads

### Top-Notch Customer Support

- ☞ Standard and Customized Solutions
- ☞ Full Service Vehicular Electronics Lab
- ☞ Engineering and Sales Support to assist with application specific requirements
- ☞ New Product Development with a gated process utilizing cross-functional teams
- ☞ Fully certified ISO9001:2000
