

HB12250 Traction Dry Cell

Non-Spillable, maintenance-free AGM technology designed for longer cycle life and deep discharge applications. Built to withstand cyclic applications such as Mobile Auxiliary and Emergency Power, Electric tools, Electric Vehicles, Aerial Lifts, Scissor Lifts, Work Platforms, Floor Care Equipment, Materials Handling Equipment, Mobile Renewable Energy, Recreational Vehicle, and Marine.

PRODUCT SPECIFICATIONS:

Harris Battery Part #:	HB12250
Volts:	12
BCI Group Size:	8D
Weight lbs:	156.5
Weight kg:	71.00
Length inches:	20.51
Length mm:	521.00
Width inches:	10.59
Width mm:	269.00
Height inches:	8.78
Height mm:	223.00
Capacity 10HR (10.8V):	250AH
Capacity 5HR (10.5V):	220AH
Capacity 1HR (9.6V):	155AH
Terminal:	F13

NOTES:

- Additional product configurations available with some modules
- Multiple Terminal options available with most models
- Harris Battery provides responsible battery recycling
- Warranty references product application
- Image may differ from actual product available
