Designing and Delivering Innovative Customer Focused Product Solutions

ITC has been delivering product and service solutions to our customers for over 32 years by providing quality, innovative products as well as supportive and responsive service. This has allowed us to become a leader in our markets.

We focus on solutions that give our customers a competitive advantage in their marketplace and make their jobs easier.

We provide a wide range of standard products as well as custom solutions for our customer base. We understand the market competitiveness our customers face and how providing unique and proprietary product options can help our customers set themselves apart. ITC offers a complete service package from product concept development, engineering and material sourcing to quality production and on-time delivery. Contact us today to see how we can help you with your specific product needs.

At ITC we believe that . . .

being *Market Driven* keeps us striving to find and deliver the most innovative products at the best prices for our customers

being **Dedicated** to our customer's proprietary and custom design needs makes it easier for them to delight their customers

being *Collaborative* with our customers and our global supply chain creates great sourcing opportunities for our customers

being *Service Oriented* with on-time deliveries, local warehousing options, and a helpful customer service team ensures our customers' confidence

ITC Marine

ITC has focused on providing the marine market products that bring state-of-the-art technology and innovative designs together. Marine customers were among our first with the introduction of our ski tow and horn for pleasure boating. Our product offering has extended to include the unique needs of the boating market today, including luxury items such as lighted wine glass holders and mood lighting options and functional items such as custom designed LED light housings, that highlight our customers' products.

ITC RV

ITC continues to expand our partnerships within the RV market through our understanding of the current wants and needs of the RV manufacturer and consumer. Home inspired decorative lighting, price and style sensitive overhead lighting, along with safety products such as lighted assist handles and reliable table leg systems, give our customers the look and feel they are seeking.

ITC Manufacturers' Select

ITC's retail brand of OEM quality products is an advantage to retailers, consumers, and our manufacturing customers. ITC handles replacement and service parts through a team of retail professionals so our manufacturing partners can be assured that their customers will have long term satisfaction with their marine craft or RV. Manufacturers can also use this retail channel as a selling benefit; positioning the ability to get replacement parts or up-graded parts in the future can enhance a buyer's experience.

LED OVERHEAD LIGHTING

ITC's line of LED lighting is at the forefront of green and energy efficient lighting. By combining our high standard on finish, design, and engineering with the technology of LED lighting, ITC is able to offer LED products that enable a seamless transition from traditional lighting to LED. In addition, ITC's LEDs offer a 50,000 hour life and low energy consumption enabling a more efficient power configuration for customers and end users alike.

OVERHEAD LIGHTING

The RV & Marine industries rely on quality overhead lighting to make spaces functional. Modern finishes and maximum light output push fixtures in the Radiance™ and Decor™ series by ITC to be the top choice of design and engineering decision makers. By combining aesthetics, functionality, and industry leading engineering, ITC continually brings desirable overhead lighting to new and existing customers.
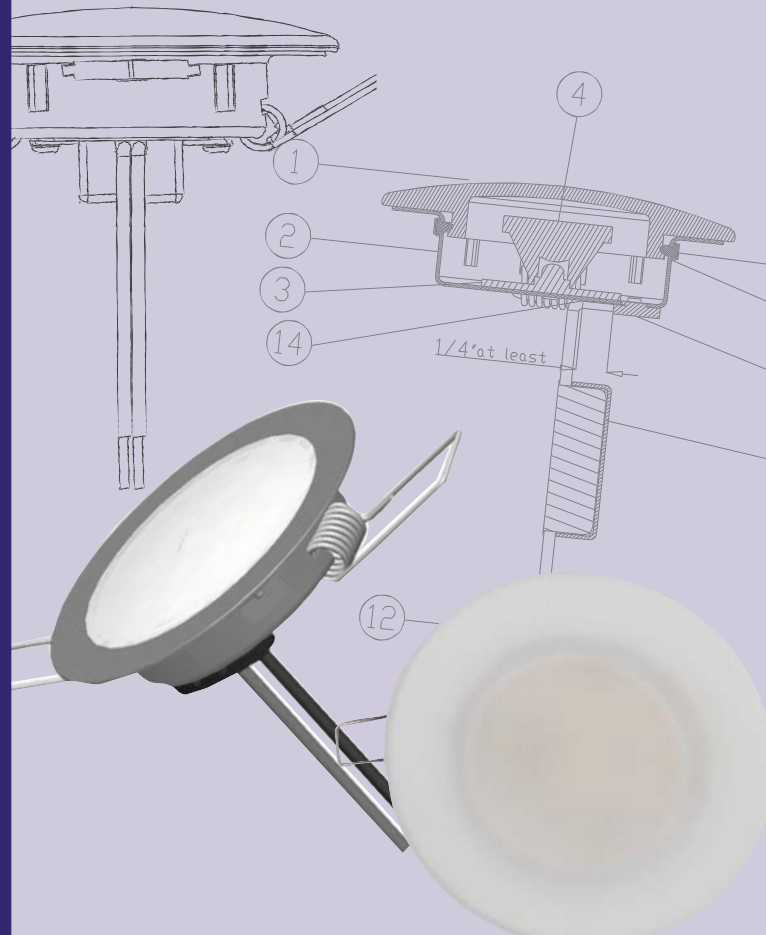

LED Overhead Lighting

ITC's line of LED overhead lighting embraces energy saving benefits while providing a seamless transition from traditional halogen fixtures. Designed with high quality aesthetics and engineering in mind, ITC's LED overhead lighting provides high quality light output to illuminate spaces with the right amount of light needed. Offering 50,000 hours of illumination and a low energy draw, LEDs are the lighting advantage and premier choice for manufacturing & design.

MACADAM ELLIPSE COLOR BINNING

MacAdam Ellipse, color control technology - color differences between fixtures guaranteed to be undetectable to the human eye.

3" Radiance™ LED Overhead Light

MACADAM ELLIPSE COLOR BINNING

69231B-3K

- Standard clip-in, spring, or screw mounts.
- In conformance with FCC Part 18 (Noise & Interference)
- Power saving LED technology
- Pleasing warm white light output
- Light output is equivalent to ITC's 10 watt halogen
- Patent number 7,322,722
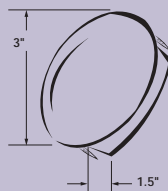

0.9"

3.125"
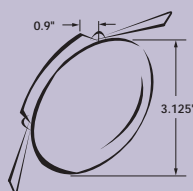

NOTE: See page 11 for mounting option details.

ITEM NUMBER	DESCRIPTION	LED COLOR TEMPERATURE	LUMENS	CUTOUT	LISTING	WATTAGE	VOLTAGE	AMP DRAW	CASE QTY

Lexan Series LED Overhead Lighting

ITC's Lexan series of LED overhead lights are among some of the most efficient LED fixtures on the market today. Each fixture is equipped with a special thermal conductive plastic housing designed for maximum heat dissipation that protects and extends the life of the fixture's LEDs. Additionally, Lexan fixtures are finished with state-of-the-art lenses that provide an even diffused flow while maximizing the light output.

3" Radiance™ Lexan Surface Mount LED Overhead Light

MACADAM ELLIPSE COLOR BINNING

- Illuminated with 15 warm white LEDs
- Available with or without integral on/off switch
- Innovative Lexan lens provides the appearance of frosted glass while offering maximum light output and a soft diffused light
- FCC compliant

Digital Dimmer Switches

ITC's selection of dimmer switches are designed to fit a variety of marine and RV applications. Choose from the standard Digital Dimmer, Backlit LED Digital Dimmer, or our new Radio Frequency (RF) dimmer designed to fit the needs of marine and RV manufactures alike.

Backlit LED Digital Dimmer

- 10-24V DC dimmer can handle up to 100 watts of draw
- Works with halogen and LED fixtures
- CSA Listed
- LED backlit power button/night light illuminates until turned on
- Separate power switch allows for maintaining desired light output level
- Dimming positions allow even transition by pressing and holding adjustment buttons
- Slim styling, size and depth designed for marine & RV applications
- Dimming range: 5% - 100%
- Simple 3 wire installation
  [Installation instructions available]

21030-BKBNBK

Wireless LED Dimmer/Receiver System

- Radio frequency wireless functionality
- Easy to configure and installs in minutes
- Mounts in a standard size junction box
- Replaceable battery (CR2032) lasts approximately 60,000 on/off activations and/or 20,000 dimming activations
- 300 foot frequency range for dimming capabilities
- Unique ID for each switch activates only with intended receiver
- Faceplate available in black, white, or nickel
- System has the storage capacity for use with up to 15 independently operated devices

LED LIGHTING

ITC's line of LED lighting is at the forefront of green and energy efficient lighting. By combining our high standard on finish, design, and engineering with the technology of LED lighting, ITC is able to offer LED products that enable a seamless transition from traditional lighting to LED. In addition, LEDs offer a 50,000 hour life and low energy consumption enabling a more efficient power configuration for customers and end users alike.

COURTESY LIGHTING

Courtesy lighting provides an easy lighting solution to tight areas where illumination is needed and desired. It is most often used to accent speciality features & create ambiance. Courtesy lighting is a key safety feature in boats and recreational vehicles.

READING LIGHTS

Designed for task specific lighting, ITC's reading lights offer fixed and directional lighting. They combine top quality engineering with leading design that compliment many decors.

LED Courtesy Lighting

Courtesy and flexible lighting by ITC Incorporated offers high quality products for illuminating unique spaces and pathways. ITC's line of LED lighting provides the necessary illumination backed by a product with an LED life of 50,000 hours and low energy consumption. An ideal choice for marine & RV manufacturers alike.

LED Courtesy Light

- Surface Mount - 5/8" depth
- Cool white or blue LED options
- Watertight fixture with 316 stainless steel trim ring
- In conformance with FCC Part 18 (Noise & Interference)
- Trim ring can be laser etched for personalization

FLEXIBLE LINEAR

Lighting
Flexible Linear

FLEXIBLE LED LINEAR LIGHTING

ITC's line of flexible LED lighting is at the forefront of green and energy efficient lighting. Its innovative design provides endless installation possibilities with watertight, adhesive tape backed, diffused light, and side illumination versions available to fit any application. Simple mounting options include an adhesive 3M tape backing and multiple mounting channel options for a secure stable installation. Coupled with an innovative connector system, ITC LED Flexible Linear Lighting is an ideal choice for marine & RV manufacturers alike.

Astra™ **Flexible LED Linear Light**

- Can be cut to length in 5cm increments (3 LEDs)
- Available in bulk 5 meter rolls or custom cut lengths
- 50,000 hour LED life
- Adheres with 3M high performance non-woven double sided tape
- Supplied with a 12" wire lead on the end of the roll
- Watertight IP64 Rated
- Plastic mounting channel designed to mount with #4 flathead screws
- Innovative connector system allows for simple installation across virtually any application

Luna™

Diffused Flexible LED Linear Light

- Neon-like illumination
- Soft and appealing light output
- Great for applications where spot free illumination is required. Example: under cabinet applications to eliminate spots on the counter
- Available in any length up to 196"
- Multiple color options including blue, warm white, and cool white [Red available by special order]
- IP66 rated; Watertight for external marine and RV applications
- 30,000 hours of estimated life
- Patent Pending
- Innovative connector system allows for simple installation across virtually any application

Functional Lighting
Navigation, Flood/Dock Lighting & Utility Lighting

Quality functional lighting will add both value and efficiency to your unit while complimenting it's look and style. ITC's array of trusted lighting fixtures will offer a superior variety of selection while bestowing the confidence that any item will be of the utmost quality.

NAVIGATION LIGHTING

Our line of navigation lights are designed to work on boats up to 39 or 65 feet in length and are constructed with superior quality corrosion resistant stainless steel. Their impact resistant, watertight assembly provides 112.5° of visibility and mounts easily without any disassembly. These useful lights are small enough to fit into limited spaces and contain a 6-position bulb holder that provides more points of contact. Each navigation light meets or exceeds ABYC, UL, NMMA and '72 COLOREGS from the U.S Inland Navigation Rules and U.S. Coast Guard Regulated Standards.

FLOOD AND DOCK LIGHTING

ITC's trusted line of flood and dock lighting consists of several halogen fixtures to suit many lighting applications. Our distinctive line of flood and docking lights offer a wide range of high caliber options that will provide years of exemplary performance.

UTILITY LIGHTING

ITC's expertly designed utility lighting fixtures offer an attractive solution for your utility lighting application needs. Options including linear LED lights and porch lights are perfect for the utility lighting needs for boat and RV manufacturers alike.

Navigation Lighting

These robust stainless steel lights, available in either LED or incandescent, are constructed from corrosion resistant stainless steel for use on boats up to 39 feet in length (10 meters) and meet all ABYC, US, NMMA, & USCG specifications.

LED Navigation Lights

- Black plastic housing with optional high polished 304 stainless steel bezel
- 1NM visibility for use on boats up to 39.4'
- Watertight design
- No disassembly required for installation
- Meets or exceeds ABYC, UL, NMMA, '72 COLOREGS from the US Inland Navigation Rules & US Coast Guard Regulated Standards

LED Docking Light

- All stainless steel construction
- UV stable and scratch resistant polycarbonate lens provides automotive look
- RV wheel well area installation provides perfect illumination for reverse navigation
- Marine hull mount under rub rail offers the perfect illumination for docking
- Single locking set screw on underside
- Hidden fasteners for a finished appearance
- Installed with a 2.75" diameter hole saw on 3.5" centers
- Rubber gaskets for watertight seal
- LED technology for long life and reduced power consumption

Ideal for RV wheel well and marine hull mount applications to aid in parking, reversing, and docking

DECORATIVE LIGHTING
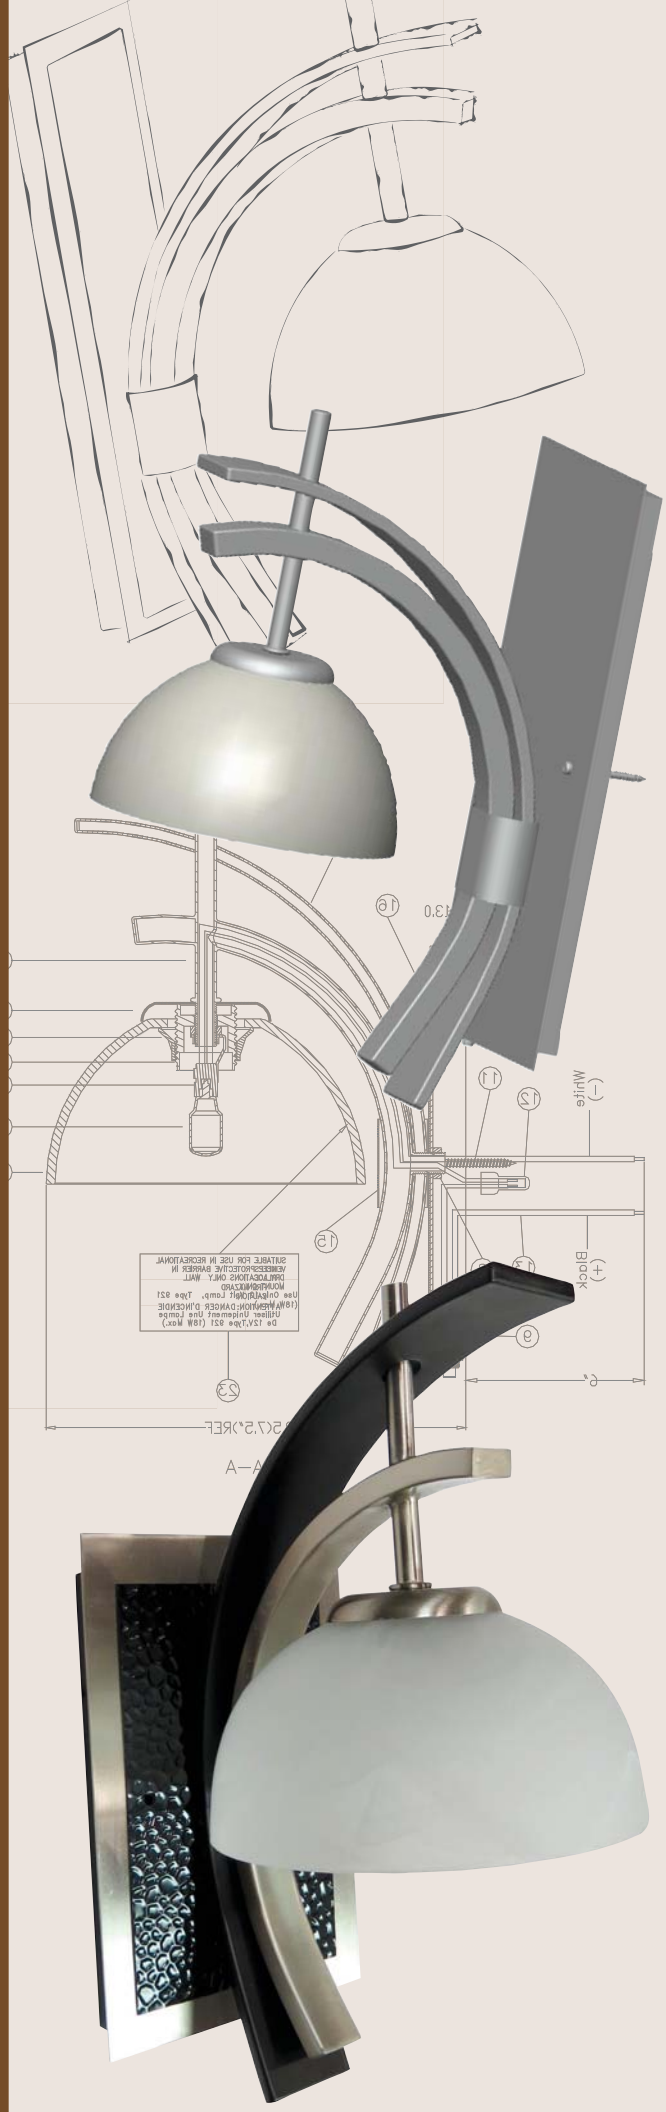

Brushed Nickel (NI)

Antique Nickel (AN)

Truffle (TF)

Matte Black (BK)

Decorative Lighting

Pin ups, dinettes, wall sconces, vanity lights, and pendant lights

Our decorative lighting families have great popularity due to our innovative designs

DESIGNS
From the classic style of our Signature series to the exciting new Infinity Series, there is sure to be a family of lighting to suit your decor and your budget.

BLOWN GLASS
ITC is the first to bring affordable blown glass options to the RV industry. These hand-blown pieces of glass allow for exceptional beauty and extraordinary style at an economical price.

FINISHES
Our decorative lighting finish choices include all the most popular options including brushed nickel and antique nickel, truffle and our trendsetting new matte black finish. Examples of the finishes are shown to the left.

Diana Family of Decorative Lighting

Savannah™ Series

The Savannah series of lighting offers shaded lighting with beautiful flowing curves that add beauty and interest in our matte black finish. Several options in the family including dinettes, pendants and pin up to complete your interior decor.

Savannah™ Island Pendant Light

- Our Island Pendant light is for use over a large island instead of several separate pendant lights.
- Built with metal tubing, the light has a flowing, ornate design
- Shown with 34560-5 shade; additional options (part numbers 410-0005-XX) shown on pages 71-72

Willow™ Series

Our Willow series offers interest in the flowing arms of the design. This series provides both flair and function to your interiors, in a stylish way.

Willow™ Pin Up Light

- The Willow arms on the pin up hold the post that holds the glass in a floating position
- The base plate includes a complementing hammered decorative plate. It is black on the nickel lights, and copper on the truffle lights.
- Shown with 4240 bowl shaped, white alabaster glass, but can be used with any of our large glass options shown on pages 69-70
- Includes bulb and switch

Infinity™ Series

The options in this series are seemingly infinite due to the interchangeable plates. The lights are shown here with our mirror mosaic, but the insert can be any material imaginable, such as mirror, metal, glass, leather, etc.

Infinity™ Pin Up Light

- The Infinity pin up is a play on words in that the insert can be customized to virtually anything your design team can imagine, leaving you with infinite options.
- The square arm extends from the bottom of the plate so as not to interfere with the insert
- Shown with white alabaster glass, but can be used with any of our large glass options shown on pages 69-70
- Includes bulb and switch
- Patent Pending

Faucets, Sprayers, Showers & Drain Stoppers

ITC's brand of innovative plumbing fixtures offer superior quality construction and corrosion resistance without sacrificing style or function. With an extensive variety of kitchen and bath faucets, exterior showers, sprayers and flip-top drain stoppers, ITC has the quality plumbing fixture that will add both value and efficiency without breaking the budget.

KITCHEN AND BATH FAUCETS

Our line of kitchen and bath faucets are designed with quality and functionality in mind. These stylish fixtures will add both style and beauty to your unit while upholding the strictest of quality standards that you have come to expect from ITC. Many of our faucets are CSA and IAMPO listed and make use of ceramic disk technology, solid cast brass construction and flexible stainless steel risers. Available in various styles and finishes, ITC has the perfect fixture to complement any décor.

SHOWERS, SPRAYERS, DRAIN STOPPERS

Constructed from quality materials with the style and durability that is an ITC standard, our line of showers, sprayers, and Pivot™ drain stoppers will provide the perfect combination of style, quality and functionality regardless of application or budget.

Kitchen, Bath and Bar Faucets

Choose from various styles and finishes to complement any décor. Durable cast brass bodies and flexible stainless steel risers are also available.

Interior Shower Sets

- Choose between our balanced valve styles from our traditional lever handle or a contemporary stem style handle
- Sprayer has 3 functions, and conserves water, using only 2.2 gallons per minute.
- The shower system requires one of our sprayers:
  - The ergonomic hand-held shower head kit includes an adjustable bar & integral soap dish.
  - The chic and contemporary straight sprayer, with integrated on/off switch
- Each shower kit requires a solid brass elbow (Chrome or Nickel)
- The shower kit requires one male to male fitting (99001-NIPPLE)

Assist Handles
Straight, Formed, Lighted, and Folding

STRAIGHT ASSIST HANDLES

The straight IllumaGrip® handles feature either 1″ or 1.25″ acrylic with various end caps and custom screen printing in a variety of different lengths so you can have consistency in aesthetics throughout your unit.

FORMED ASSIST HANDLES

Our formed IllumaGrip® is created to allow a little more distance behind the handle. The impressive 1.25″ acrylic is heat formed and has become a major player in the assist handle world.

FOLDING ASSIST HANDLES

Our Stow & Go™ folding assist handle can be opened for entry or exit, but then stows tightly to the wall when the vehicle is underway.
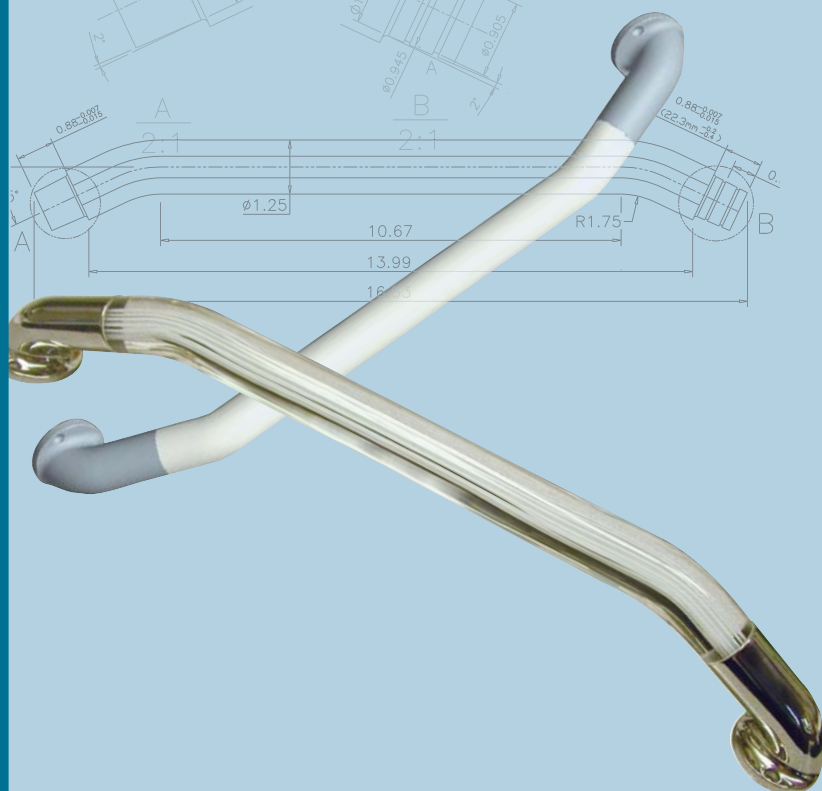

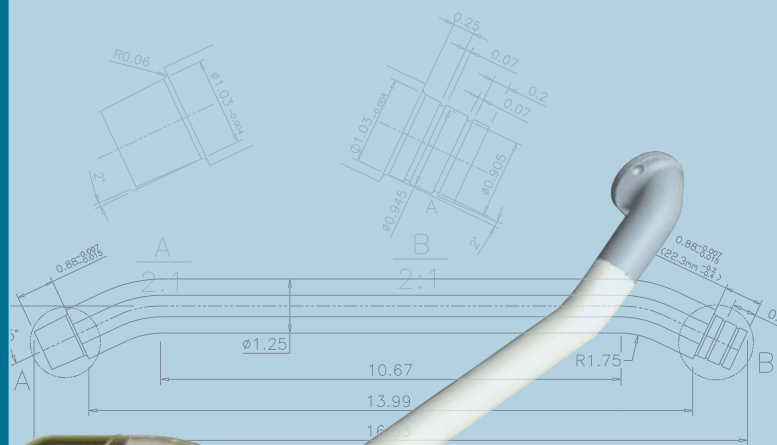

Illumagrip® Assist Handles

An innovation in assist handles - The IllumaGrip® is available straight or formed and can be LED lit for aesthetic and safety enhancement.

Formed IllumaGrip® Assist Handle

- 20″ Long with 1.25″ diameter solid acrylic
- 1.25″ diameter acrylic features embedded highly reflective lines
- Available with brushed or highly polished end caps in 304 stainless steel
- Choose your handles lit or unlit
- Customized screen printing available*
- End cap each has two mounting holes
- Pull testing exceeds 400 pounds
- Covered under patent # 6592240 & 7374319

Table Leg & Base Systems

SurFit™, Sequoia™ and Redwood™

TABLE LEG SYSTEMS

ITC has been in the table leg business for many years. The SurFit™ system is a non-locking system and features various options and finishes. As a direct result of working with customers to develop our products, the Sequoia™ and Redwood™ systems were introduced. The Sequoia™ system features polished stainless steel, anodized aluminum and powder coated cast aluminum components that can be mixed and matched according to function, price point and aesthetics.
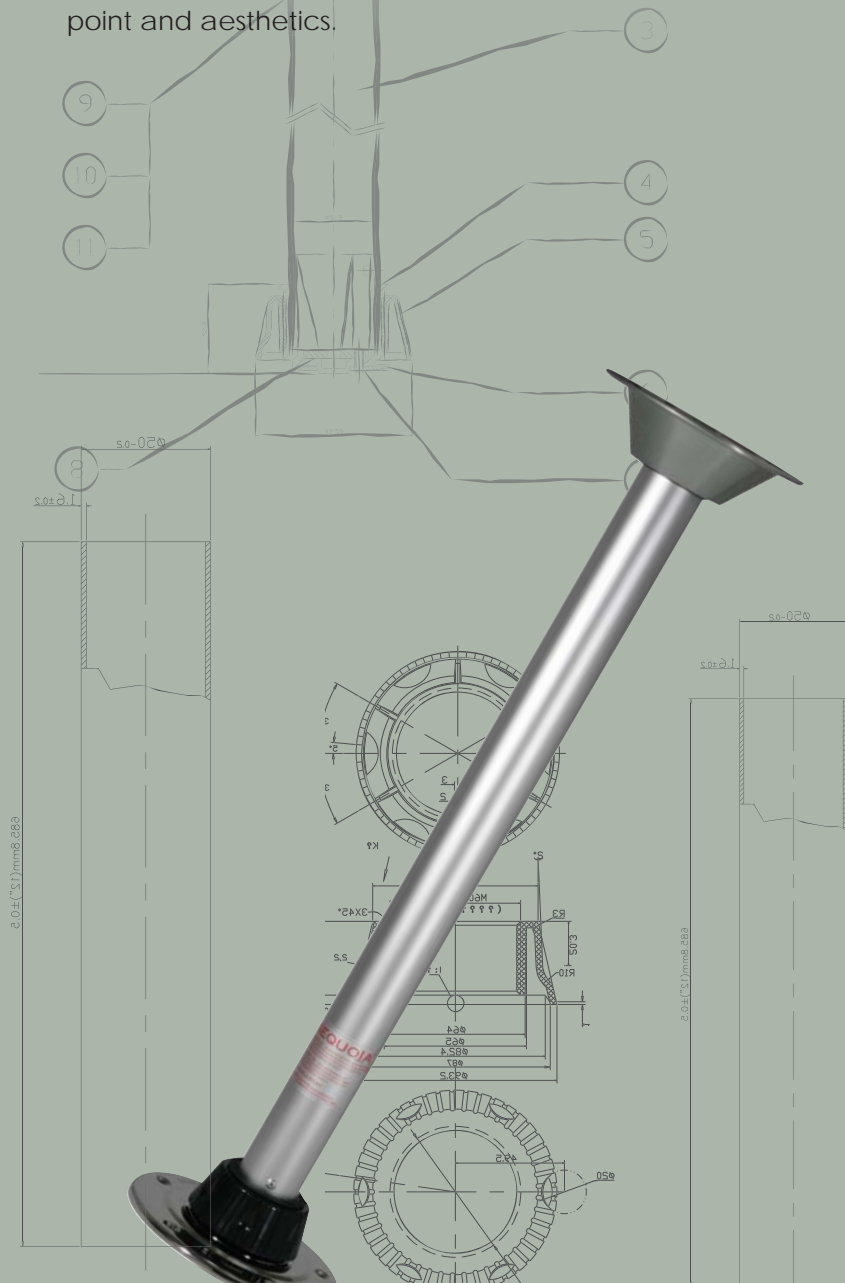

Table Leg & Base Systems

Our table systems offer something for nearly every need you have, from simple, non-locking steel post systems to our premium Sequoia™ system. Choose from such options as stainless steel and aluminum components in a system that offers strong, locking support.

Redwood™ Table Leg & Base System

- Strong, stable and attractive components
- Innovative threaded lock base/leg mechanism is easy to install providing greater stability and a secure fit
- 2" diameter anodized aluminum legs are available in 27" and 29" lengths
- Floor bases are surface mount, eliminating the need to recess the base into the floor
- Bases are powder coated on each side for superior corrosion resistance
- Available in a black or silver finish
- Black plastic table base, glass filled nylon for superior strength
- Positive snap-on table base with capability to rotate
- Patent Pending

SECTION A-A
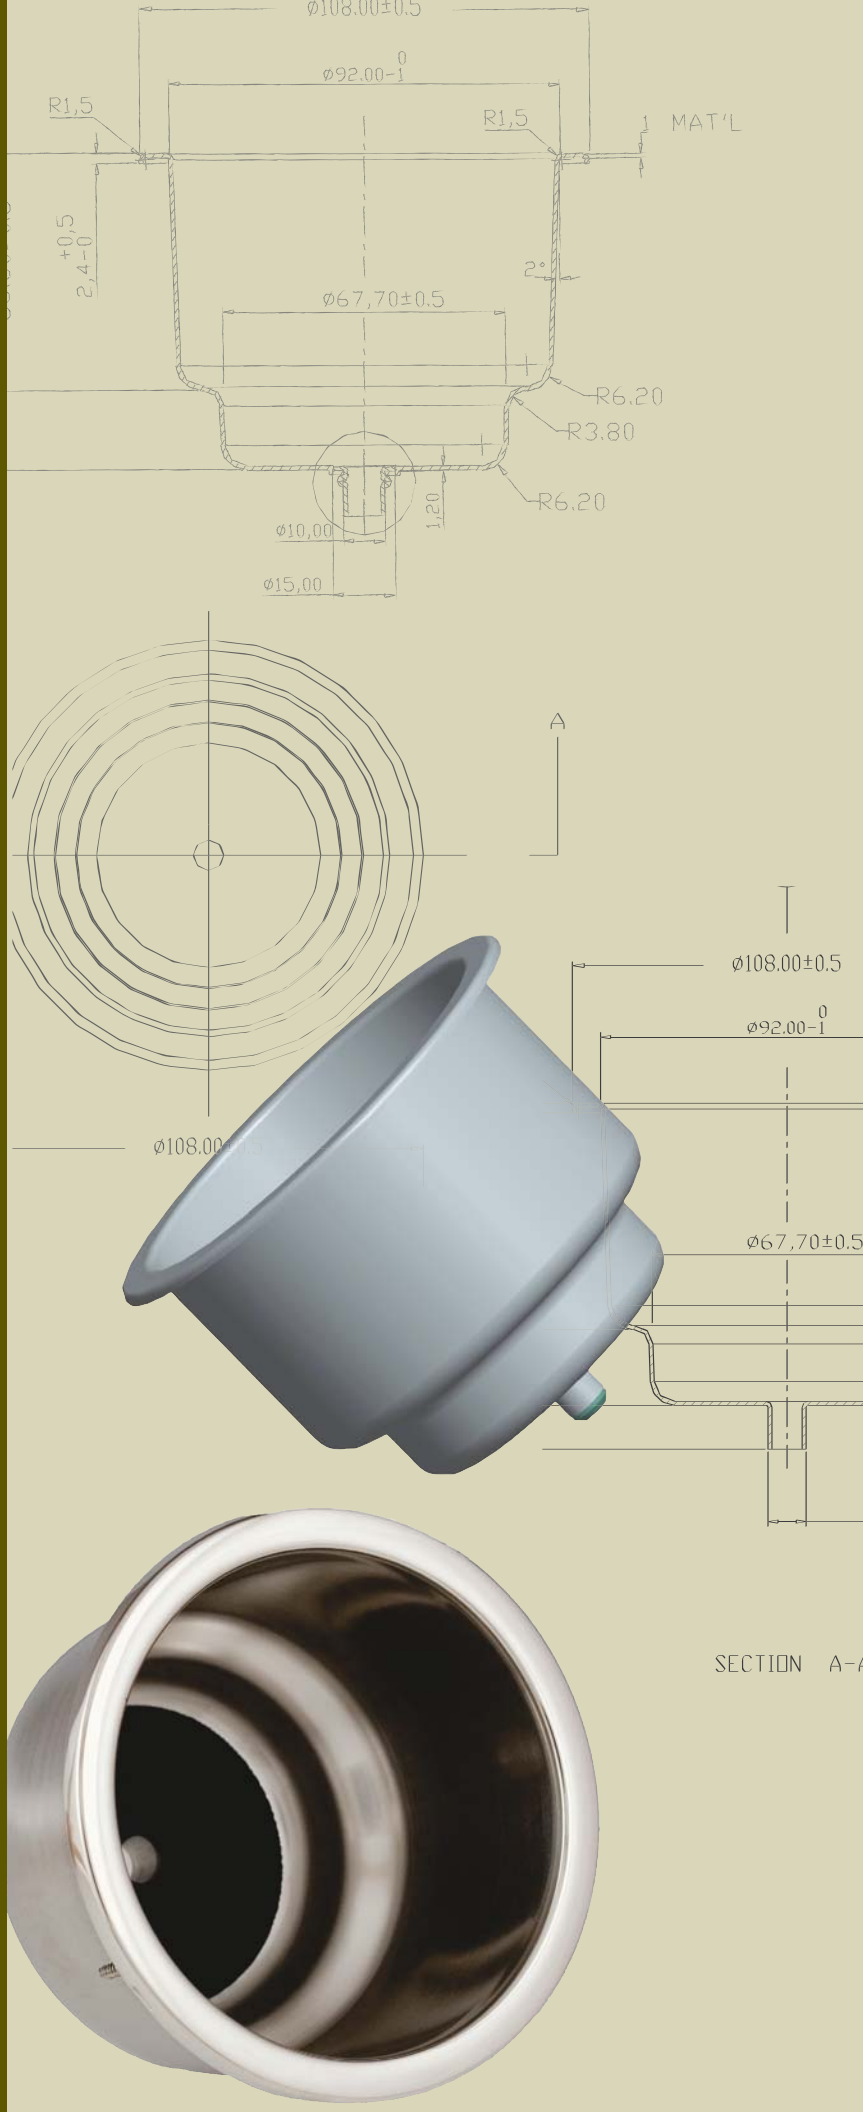

Drink Holders
Stainless Steel & Adjustable

The drink holders from ITC range from an adjustable folding cup holder to highly polished, decorative parts.

STAINLESS STEEL DRINK HOLDERS

ITC set the standard in drink holders with the introduction of the Hydra™ stainless steel options. These are all highly polished and available in 304 and 316 stainless. The extensive product line includes straight and stepped versions with installation options including tape mount, press fit, ring mount and are available with an optional blue or white LED accent light.

ADJUSTABLE DRINK HOLDERS

Our patented adjustable drink holders have become a classic. The simplicity of design features an expandable holder that adjusts to the size of the cup, and folds up tightly when not in use. It is available in neutral tones to complement most color schemes.

STAINLESS STEEL WINE HOLDERS

Add a unique and functional accent to your space with ITC's stainless steel wine holders. Available in a single wine glass holder or our triple wine bottle holder - a perfect solution for wine storage and spill prevention!

Stainless Steel Drink Holders

Our extensive line of stainless steel drink holders includes straight and stepped versions with installation options including tape mount, press fit, ring mount and are available with an optional blue or white LED accent light.

Stepped Bottom Stainless Steel Drink Holder

- 304 and 316 stainless steel
- Highly polished
- 3M closed foam tape under lip
- Stepped to accept various sized containers
- Includes secured noise reduction pad
- Available with and without 3/8″ nipple for drain tube (not included)
- Optional 90° elbow for 3/8″ drain tube attachment available
- Weep hole included, and a weep hole plug is available

Ventilation

Airflow Vents, Custom Vents

ITC has worked with many OEMs to develop our extensive product line of air flow ventilation. Many of our vents were collaborations.

AIRFLOW VENTS

Our ever-expanding product line of vents includes simple open style vents for air flow in various shapes up to high-end, curved, stainless steel clad vents.

CUSTOM VENTS

May large customers look to ITC to collaborate on their ventilation needs. Through these relationships, may of our customers look to us as their ventilation experts. Contact ITC for more information on our custom ventilation capabilities.

Contact ITC at 1.888.871.8860 for all of your custom ventilation needs.
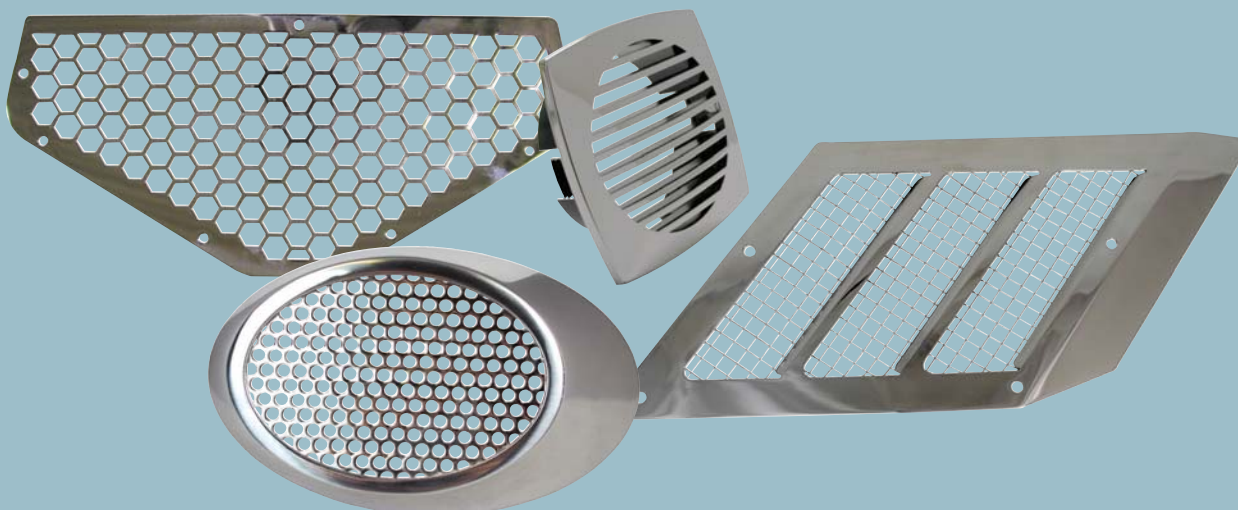

Hardware
Cabinet Latches, Drawer Pulls, Ski Tows & Hatch Pins

Our hardware features various products that are both functional as well as attractive.

CABINET LATCHES

The Whisper Latch™ Cam Latch is the perfect match between function and beauty. One assembly can be used for one drawer or door. The molded housing features a locking mechanism along with a cam that keeps the door closed, even when the lock is not engaged. The solid brass components are plated in finishes to complement all of our interior products including lights and faucets, for a polished, cohesive design.

SKI TOWS

Our solid stainless steel ski tows have been a favorite of our customers for many years. The form and function provides for years of skiing pleasure. Choose from various styles including the quintessential round transom option and a unique, elliptical design.
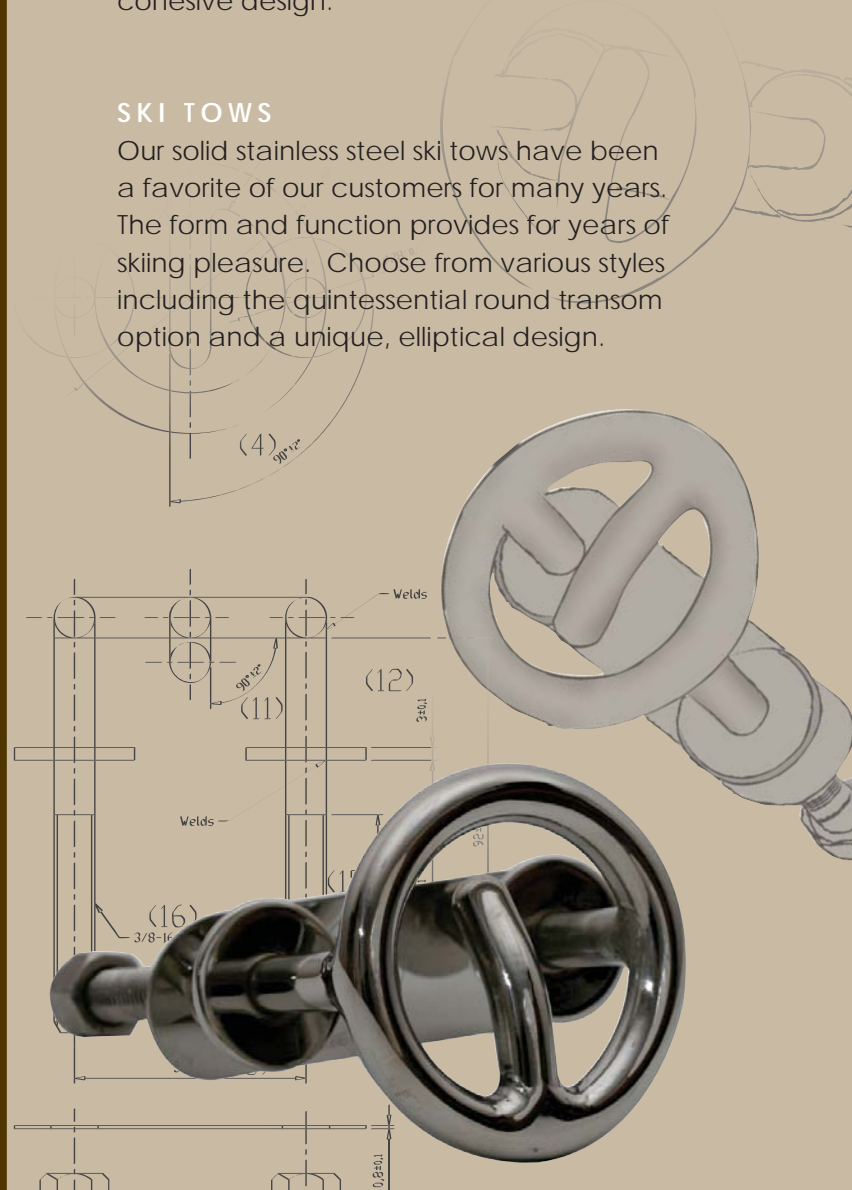

Cabinet and Drawer Hardware

Functional and attractive hardware designed to compliment our vast array of interior decor

WhisperLatch™ Cam Latch Cabinet Hardware

- Self-latching door hardware
- Works with 3/4″ thick cabinetry, but can use accessories to work with 5/8″ or 1/2″ cabinetry
- Features a cam mechanism to keep the door closed when lock is not engaged
- Solid brass knobs and collars, plated chrome, brass or brushed nickel
- Die cast components for smooth operation
- Strong, stainless steel springs
- Neutral color housing coordinates with cabinetry
- Solid brass knobs available with chrome, brushed nickel and brass plating
- Includes mounting plate (chrome only) for use with any of our knobs
    - Requires a 1/4″ - 20 machine screw for installation (not included)

Structural Rail Support

Our Pontoon Fence Rail Support eliminates the toe-stub hazard and inconvenience of obtrusive alternative support bracket options. Comprised of a robust glass fill, the support brace can be installed within pontoon rail fencing for added strength and stability.

Pontoon Fence Rail Support

- Eliminate "toe-stub" hazard and inconvenience of obtrusive angle bracket supports

- Comprised of a robust glass fill nylon material for superior structural support

- Designed to serve double-duty as hidden in-rail support and space ship for maximum installation efficiency

- Creates a pontoon deck space with a more finished and professional appeal by eliminating unsightly angle brackets

ABOUT THE COMPANY

ITC Incorporated is a service driven design and manufacturing company that continually meets the needs of it's customers through engineering innovation and quality design. Through ground-breaking custom and proprietary products, ITC has produced over 40 patents that meet customer needs and exceed industry expectations on quality, timely deliveries, and customer service. The core values of ITC revolve around developing customer relationships through listening and building trust. These relationships lead to value-oriented products and services that create an atmosphere of mutual respect and commitment with its employees that transcends to all ITC products & services. The end result of these core values is a customer-oriented company that is constantly innovating within its industry.

SERVICE COMMITMENT

ITC is committed to using its multi-national platform to deliver innovative application centered solutions that are customer focused. This customer focus will be manifested by recognition that growth occurs by enabling all team members to listen to customers and provide creative and timely superlative: customer service, product delivery, and quality engineered products.

ITC QUALITY COMMITMENT

We have chosen sales representative organizations that locally represent ITC products and offer superior customer service. Our employees and independent representatives focus on specific ways in which to reduce lead times, stay ahead of market trends, eliminate back orders and provide friendly, knowledgeable service.

Between our facilities in Michigan and Indiana, we have nearly 80,000 square feet of warehouse space and a staff that ships products daily, in a Just-In-Time (JIT) manner.

JIT is made possible through forecasting by our staff and communicating with customers. An in-house management team at ITC meets daily to assure on time delivery and to trouble-shoot possible back order situations. Customer focused forecasting benefits our customers by eliminating back orders and reducing lead times.

ITC researches market trends and develops new and innovative products with capital that our competitors have tied up in unmanageable inventory levels. ITC has diversified its product line from a couple of stainless steel ski tows in 1982 to over 4,000 different products today.

In addition to Marine and RV OEM products, ITC produces industrial & LED lighting products for the office furniture, retail display, residential cabinetry, and aftermarket industries. We also focus on customer-designed aluminum die castings, stainless steel investment castings, aluminum extrusion and metal weldments & castings.

GENERAL PRODUCT LIMITED WARRANTY:

ITC warrants, to the original consumer, that the product will be free of defects in materials and/or workmanship for the period of time set forth herein. This warranty period will begin from the later of the original date of purchase of the product or the date of sale of the recreational vehicle or boat in which the product is installed is first sold to the first consumer provided that adequate documentation of said consumer sale date is provided to ITC. Adequacy of the authenticity of the consumer sale date will be determined by ITC in it sole discretion. In the event the consumer sale date is not provided or not determined to be adequate by ITC, then the warranty period will begin on the original date of purchase of the product from ITC. Except as set forth below, this general product limited warranty will extend for three years. All exterior faucets, exterior showers, exterior plumbing products, rope lighting and clocks will have a one year warranty period. All assist handles will have a two year warranty period, provided that crazing caused by chemical attack from a contaminant is not covered by any warranty. Products that are primarily comprised of 316 stainless steel will have a five year warranty period. Bulbs, including halogen, incandescent, xenon.

MAXIMUM LIABILITY ITC's liability to repair or replace a damaged item shall be limited to the original purchaser of the item at the original invoice price of the damaged unit, acceptable labor charges, acceptable freight charges, and dealer charge backs mandated by state law. ITC will not credit customers for excessive labor or freight charges or unauthorized dealer or customer markup fees. Acceptable freight and labor charges are available from ITC upon request.

INSPECTION ITC reserves the right to review the damaged product and the site where the damage occurred. ITC may require the purchaser to ship the item to ITC for inspection. The damaged item must remain available for inspection until the claim is finalized. In the event ITC requests to inspect the product, it agrees to dispatch its findings pertaining to the alleged defective product within 45 days of receiving the product. Whenever claims are settled, ITC reserves the right to be subrogated under any existing insurance policies the purchaser may have.

EVENTS THAT VOID WARRANTY All above warranties are null and void if any one or more of the following events occurs: (a) the item is not provided to ITC for inspection upon ITC's request; (b) ITC determines that the item has been improperly installed, altered in any way or tampered with; (c) ITC determines that the item was not used under normal operating conditions or in accordance with labels or instructions for the item including, (d) ITC determines the product was not properly maintained, and/or; e) ITC determines that an unauthorized repair, modification, disassembly, or other changes to the product created the alleged defect. In addition to the foregoing, this Warranty does not protect against damage to the product when ITC determines, in its sole discretion, that the damage resulted from acts of God such as lightning, flood, earthquake, war, vandalism, theft, normal-use wear and tear, terrorism, strikes, and labor stoppages. This warranty specifically excludes damage, deterioration or discoloration caused by sunlight or similar ultraviolet rays and/or wavelengths and/or dents, holes or scratches to the unit caused by stones, rocks, debris and/or vehicles.

EXCLUSIVE REMEDY This Warranty contains the sole warranty of ITC with respect to the product and is given in lieu of all other warranties. There are no other warranties, express or implied, including implied warranties of merchantability or fitness for a particular purpose and any implied warranties that cannot be waived and/or excluded are hereby limited in duration to the terms of this Warranty (1).

LIMITATION ON LIABILITY In no event shall ITC or any affiliate of ITC be liable for direct, indirect, special, incidental, consequential, or multiple damages arising out of the use of the item, regardless of the legal theory on which such claim is based, even if ITC has been advised of the possibility of such damage. Consequential damages shall include, but are not limited to loss of profits, loss of savings or revenue.

(1) Some states do not allow limitations on how long an implied warranty lasts, so the above limitation may not be applicable.

ITC SAMPLE POLICY

ITC Incorporated understands the importance of sending out samples to our customers to review for product quality and to determine if the product will work in the application for which it has been suggested. It is the policy of ITC to send out samples at no charge for any items if the accumulated invoice amount of the samples is less than US$60.00. In the event that the invoice amount exceeds US$60, we will send the customer a memo bill for the full value of the samples. The memo bill would become payable by the customer after 90 days, if they have not returned the products to either an ITC representative or returned the products against an RGA.

ITC RETURN POLICY

1) ITC will accept absolutely no returns for product found defective at the distributor or returned by a dealer or customer as a warranty claim without a Return Authorization Number (RGA). Customers should email quality@itc-us.com or call our Quality Department 1-888-871-8860 to obtain a Return Goods Authorization number (RGA) prior to sending product back to ITC Incorporated.
2) All correspondence and credits pertaining to the alleged non-conforming product will reference the RGA number. If your company uses its own return goods numbering system, ITC will make every effort to include both reference numbers on ITC's RGA. All returns must be accommodated by our RGA number or they will not be processed. If product is received without our RGA number written on the outside of the carton, it will be refused upon receipt. All customers have 90 days to return product or the RGA will be voided.
3) ITC will reimburse a customer for credit on returned parts that are determined defective by ITC. Credit is entered based on the invoiced quoted price for said part, acceptable labor and freight charges and Dealer charge backs mandated by State law. ITC will not credit customers for unauthorized Dealer mark-ups or customer mark-up fees.
4) ITC will not issue credit for parts that were damaged or inappropriately handled by customer. Alterations to an ITC part will invalidate the warranty.
5) To preserve your claim, please securely package all parts before shipping to ITC. Damage caused by improper or inadequate storage or packaging before or during shipment will invalidate the warranty and credit may be denied. All claims are reviewed by ITC's Quality Department to determine the validity of the claim. Claims will be evaluated and disposition of said claim will be dispatched within 45 days.
6) Invalid returned parts (non-ITC parts) shall be held for 15 days maximum, then destroyed or returned at customer's expense, ITC will notify the customer accordingly. Repeated submission of invalid parts will warrant us charging the offending customer a handling fee. If a part is damaged or lost during transit, customer is responsible for directing a claim to the courier service, not ITC.
7) ITC is not responsible for freight charges of parts that the customer has ordered in error or for parts that are found not defective.
8) A schedule of acceptable freight and labor rates will be provided to each customer upon request and can be downloaded from our web site at www.itc-marine.com or www.itc-rv.com.
9) A 25% or $25.00 (whichever is greater) restocking fee will be invoiced or deducted from the return credit for parts that are not defective or parts ordered in error.
10) If a scrap credit is authorized by ITC, we will issue an RGA number and apply the credit to the customer's account without inspecting the product or having it returned to ITC. Scrap credit cannot be taken by a customer without written consent by ITC.
