

Model: SR4001, SR4500 SR4600

Subject: Service tool part number information for DATA UPDATE KIT.

Symptom: Currently, the Firmware update kit "DATA UPDA KIT" has a different part number for each of the following models: SR4001, SR4500 and SR4600. However, in reality, the kit is applicable to all of the models.

Solution: The service manual lists DATA UPDA KIT part numbers <90M-SR4001JIG> and <90M-SR4500JIG>, <90M-SR4600JIG> as follows:

1. SR4001 DATA UP DATE KIT : Part no. 90M-SR4001JIG.
2. SR4500 DATA UP DATE KIT : Part no. 90M-SR4500JIG.
3. SR4600 DATA UP DATE KIT : Part no. 90M-SR4600JIG.

However, all of these kits consist of exactly the same parts and are interchangeable to one another. Therefore, you do not always need to follow the list. For servicing, you can just order any one of them for any one of the four products.
