

Stereo Tape Deck

1. Schematic diagram shown for left channel except for some of the components.
2. All resistors are $\frac{1}{2}$ watt, $\pm 5\%$, unless marked otherwise. Resistor values are in ohms ($k = 1,000$ ohms).
3. All capacitor values are in microfarads ($p = \text{picofarads}$).
4. Δ Parts marked with this sign are safety critical components. They must always be replaced with identical components—refer to the "RAC" parts list and ensure exact replacement.
5. Voltage and level values are for reference only.
 $0dB = 0.775V$
 Indicated values are those existing when the meter indicates 0VU.
6. : front panel indication
7. : rear panel indication
8. $\oplus$ = power supply circuit.
