

VIP SM301 LIN/CAN Transceiver

VEHICLE IMPROVEMENT PRODUCTS INC.

VIP Introduces the SM301 LIN/CAN Transceiver

The SM301 LIN/CAN Transceiver enables use of VIP LIN communications-based SmartWheels directly on SAE J1939 equipped chassis.

- o **Autotmotive LIN bus used between wheel & SM301 for proven reliability**
- o **SAE J1939 bus between SM301 & chassis for standardization**
- o **Compatible with V4 (10 function) & V44 (18 function) LIN versions of SmartWheel**
- o **Steering wheel backlighting controllable via J1939**
- o **Available with two auxiliary ground-side switches**
- o **Available with outputs to control selected dash radios from V44 SmartWheel**

These products are in stock and available to ship.

- o VIP electronics are designed and verified to meet SAE Heavy Duty Truck Standards including appropriate sections of SAE J1455
- o VIP is ISO/TS registered
