

Pioneer Series

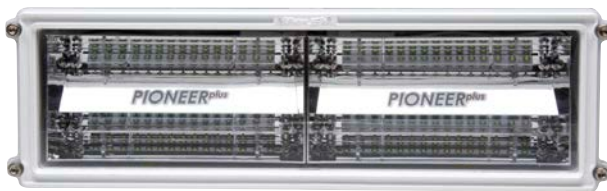

Product Supersession Chart

Retirement Date:
06/28/2018

The redesigned Pioneer Series is replacing current 12 and 24 VDC Pioneer Series models. Please consider upgrading using the recommended replacements below.

With its structural design and innovative optic technology, the Pioneer Series has been re-engineered with a more efficient light engine to put more light wherever it's needed. Increase clarity with Whelen's all-new, patent pending Proclera™ Silicone Optics. Available in single and dual models with flood or spot/flood combination optics, the newly designed Pioneer Series builds on the Pioneer family's reputation for versatility and functionality.
